ACTING COLLECTIVELY TO  
BRIDGE SPACE AND SOCIETY

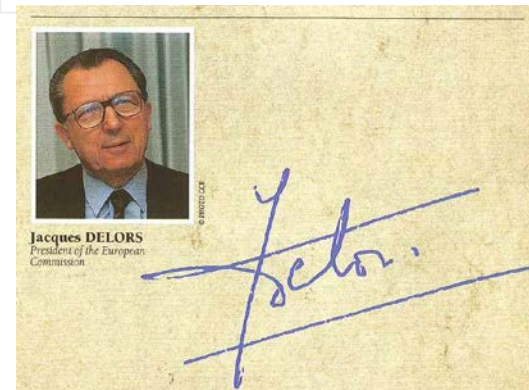

Creating public awareness of the importance of these issues and informing young people in particular of **the humanly and vocationally rewarding prospects offered by satellite systems**: these are the tasks assigned to Eurisy.

**Prof. Hubert CURIEN**

My hope is that the activities of Eurisy will help to inform the public and the decision-makers of the results of collaboration between the European Space Agency and the Commission of the European Communities in the field of the environment and of Earth observation, with a view to **promoting the European space programmes for protecting the environment.**

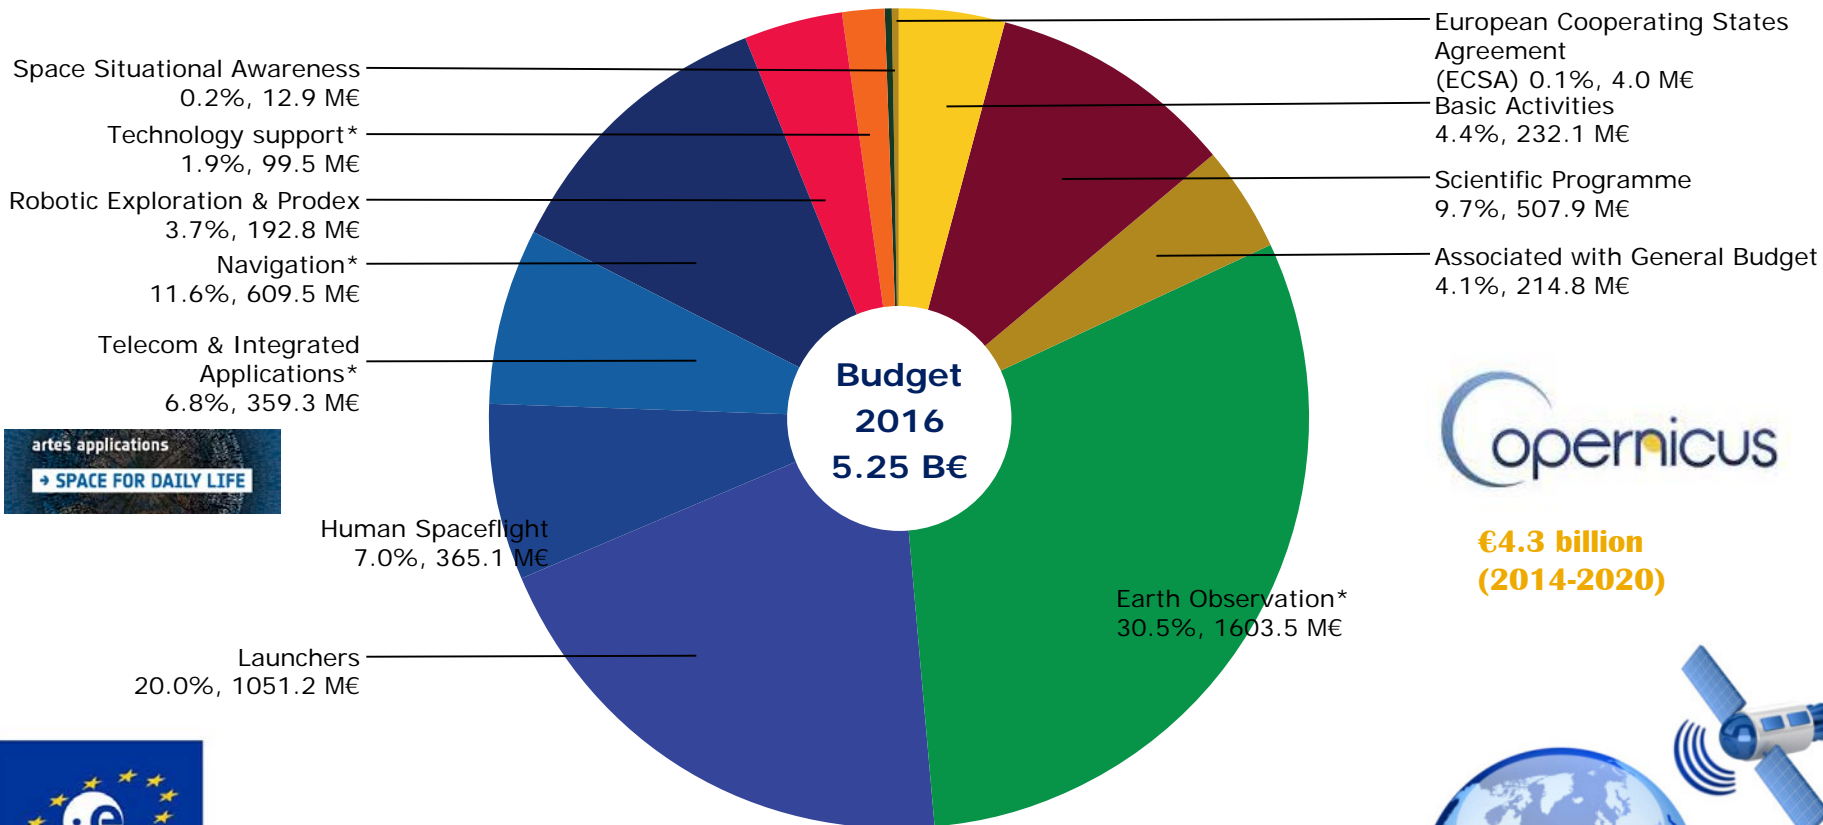

**Jacques DELORS**

**Promotes best practice and value for money**

**Creates networks**

**Assists final users and SMEs**

**Provides bottom-up feedback to decision makers**

## User Support Programme - 2014

- ✓ 253 organisations connected: 170 non-space, 83 space
- ✓ 145 testimonials of confirmed users disseminated
- ✓ 19 Eurisy events, 14 countries: more than 1600 participants
- ✓ 44 information sessions on invitation from non-space partners: 4000 participants

## **A variety of application fields**

Tourism, culture and leisure

Environment, climate and health

Energy, infrastructure and utilities

Transport and logistics

Smart cities

Risk management

Agriculture, forestry, fisheries

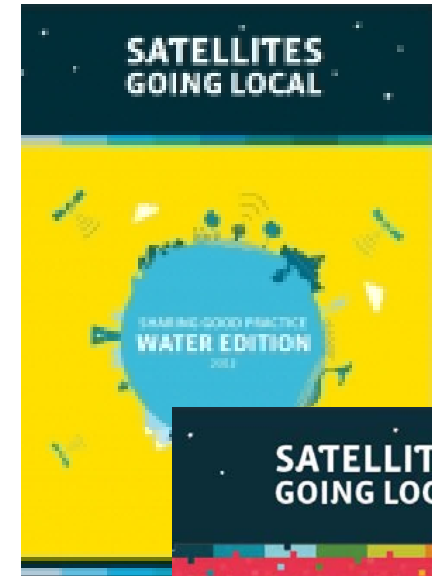

**Regular  
publications to  
collect,  
organise and  
disseminate  
data, case  
studie and best  
practices**

Operational uses of satellite-based  
applications in the public sector  
A case-study review

EXECUTIVE SUMMARY

**eurisy**  
acting collectively to  
bridge space and society

# Supporting events to professional communities, for outreach and awareness rising

Events

Events organised by Eurisy and/or those we contribute to.

AN EVENT by EURISY

**Poland User Forum "Satellites for society: operational uses of satellite-based services by the Polish public administration"**  
19 April 2016 | Warsaw, Poland  
The User Forum will focus on survey results obtained from Polish public authorities. The event, co-organised with the Polish Ministry of Economic Development, will discuss the challenges faced by Polish public authorities to procure, use and maintain satellite-based services, and propose new ways forward.

Horizon 2020  
Space Information Days  
Meet your partners  
Develop your ideas

**Horizon 2020 Space Information Days**  
19 April 2016 - 20 April 2016 | Ljubljana, Slovenia  
The two-days event is organised by COSMOS2020, in cooperation with EEN and the European Commission. The event will provide participants with valuable details on EU Space calls and funding opportunities. In addition, participants are invited to engage in bilateral meetings and take part in numerous networking opportunities. Eurisy will join the event for a round table discussion on the diffusion of satellite applications among end user communities.
